

Dropbox Instructions

Send me an email with subject line “MATH 125 - Dropbox” stating:

- “I need an account; please use this email address: _____.”
- “I have an account; it is under this email address: _____.”

I should receive your email by 17:00 (5:00pm) on Wednesday 29 January. If you state that you need an account, then I will have Dropbox email you an invitation to join Dropbox; once you then sign up, you need to email me again with the second message. Once I have an email with the second message, I will have Dropbox share two folders with your account. These folders will be the only ways to access and turn in your three projects for this class.

The first project for this class will be distributed via Dropbox by 17 February and the completed report will be due in your shared folder by 17:00 on 24 February.
