Differences

Many people have varied differences

These can include physical and cultural

Some physical differences include:

Walking “normally”, using a walker to walk, using a wheelchair, and crutches.

Some cultural differences include:

Differences in skin color, traditions, customs, or ways of life.

Such cultural differences depend upon where you live.

All physical and cultural differences need to be accepted and not teased.

**Book #1: The Keeping Quilt**

**Anchor Paper:**

Some traditions in my family include: eating dinner with my extended family on Thanksgiving and some special events on Christmas Eve and Christmas Day. On Thanksgiving, the last few years my family has gone out to eat. This is especially helpful when my mother has work at three in the afternoon so that she doesn’t have to clean dishes. On Christmas Eve my parents, brother, grandmother, and I go to church. Following the special Eve service, my parents and I drive around the neighborhood to look at Christmas lights and decorations around people’s houses. On Christmas Day, my grandmother, parents, brother, and I get up early to open presents. Christmas is always an extra special day for my grandmother since it is also her birthday. We all enjoy each other’s company and spending time together!

Book #2: The Way I Feel

Language Arts:

Activity #1: addresses Reading, Writing, and Speaking:

-Teacher will read the story. Students will listen quietly and attentively. Explain that emotions change and everyone has different emotions.

-Students will write two sentences on dotted lined paper how they feel on that particular day. Since emotions are different, children’s answers should be different too.

Activity #2: addresses Listening:

-After reading the story, since it ends with all feelings are a part of me, the class can discuss other things that are a part of each other. If body parts are mentioned, the teacher can use the “teachable moment” to read the educational rhyming story by Dr. Seuss, Inside Your Outside: All about the Human Body. Also, tone of voice for different emotions can be discussed and the importance or unimportance can be debated. The teacher must make sure all children get a turn to speak, even if they didn’t raise their hands. Children’s responses should be repeated by the teacher to ensure that all can hear.
